

SATAC

TERTIARY ENTRANCE

2014 | 2015 | 2016

TERTIARY ENTRANCE IN
SOUTH AUSTRALIA AND
THE NORTHERN TERRITORY

INFORMATION FOR STUDENTS IN YEARS 10, 11 AND 12 IN
SOUTH AUSTRALIAN AND NORTHERN TERRITORY SCHOOLS

Welcome

Tertiary Entrance booklet

Welcome to the Tertiary Entrance booklet covering the years 2014, 2015 and 2016.

SATAC publishes this booklet annually on behalf of TAFE SA and the three universities in South Australia (Flinders University, The University of Adelaide and the University of South Australia) and Charles Darwin University in the Northern Territory.

It is made available to every student in years 10, 11 and 12 in South Australian and Northern Territory schools and to their teachers.

The booklet presents detailed information about entry requirements for the coming admission year and highlights planned changes for the two subsequent years.

By providing information covering a three-year period the booklet provides assistance to students seeking to make appropriate subject choices in anticipation of tertiary study.

Up-to-date information on tertiary entrance for SACE/NTCET candidates and more detailed information about issues such as Recognised Studies and scaling is available from the SATAC website at www.satac.edu.au.

About this booklet

The purpose of this booklet is to assist students currently (2013) in years 10, 11 and 12, with guidance and assistance from schools, to make subject choices and further study decisions. It:

- >states the entry requirements under SACE/NTCET for students wishing to enter courses/programs offered by TAFE SA, the three universities in South Australia and Charles Darwin University in the Northern Territory in the next three years - 2014, 2015 and 2016;
- >gives details of SACE/NTCET Stage 2 (year 12) subject entry requirements by course/program for the three universities in South Australia and Charles Darwin University in the Northern Territory;
- >gives general information about entry requirements for TAFE SA.

2013 year 12 students

2014 Tertiary Entrance

Turn to page 4.

Check the requirements and make sure that you are eligible for the courses/programs you list as preferences in your SATAC application.

2013 year 11 students

2015 Tertiary Entrance

Turn to page 43.

Use the information to help you with your SACE/NTCET Stage 2 (year 12) subject choices.

Make sure you keep up to date with new information during 2013 before you commit yourself to tertiary entrance choices for 2015.

2013 year 10 students

2016 Tertiary Entrance

Turn to page 43.

Use the information to help you plan for SACE/NTCET Stage 2 (year 12) and make appropriate Stage 1 (year 11) subject choices.

Make sure you keep up to date with new information during 2014 and 2015 before you commit yourself to SACE/NTCET Stage 2 (year 12) subject choices for 2015 and tertiary entrance choices for 2016.

2014 tertiary entrance year 12 in 2013

SACE/NTCET

If you are in year 12 in 2013, in order to be eligible for entry in 2014 to any one of the three universities in South Australia or Charles Darwin University in the Northern Territory, you must qualify for either the South Australian Certificate of Education (SACE) or the Northern Territory Certificate of Education and Training (NTCET).

SACE/NTCET completion is also required for entry to many courses offered by TAFE SA.

To be awarded the SACE students completing Stage 2 in 2013 must:

- > complete 200 credits of subjects
- > achieve a grade of C* or better in the Personal Learning Plan, 20 credits of literacy, 10 credits of numeracy and the Research Project at Stage 2
- > achieve a grade of C- or better in an additional 60 credits at Stage 2

** For Stage 2 subjects a grade of C- or better.*

For full details about the SACE, talk to your teachers or refer to the SACE Board of South Australia website www.sace.sa.edu.au

Students completing their senior secondary education in the Northern Territory in 2013 will graduate with a Northern Territory Certificate of Education and Training (NTCET).

To be awarded the NTCET students completing Stage 2 in 2013 must:

- > complete 200 credits of subjects and courses
- > achieve a C* grade or better in the Personal Learning Plan, 20 credits of literacy, 10 credits of numeracy and 60 credits of Stage 2 subjects and courses
- > achieve a grade of C* or better in a further 40 credits at Stage 1 or 2

** For Stage 2 subjects a grade of C- or better.*

For full details about the NTCET, talk to your teachers or refer to the NT Department of Education and Training website www.det.nt.gov.au

Repeating year 12

Note that all students may have their Australian Tertiary Admission Rank (ATAR) calculated from Stage 2 subjects taken over any **three** attempts (see page 6).

If you repeat year 12, either in the year following your first attempt or at a later time, you will need to comply with the tertiary entry requirements for the year in which you seek tertiary admission.

Read the relevant section to see how any changes to course/program entry requirements might affect you.

2014 tertiary entrance year 12 in 2013

2014 TAFE SA entry requirements

TAFE SA courses offered through SATAC have Course Admission Requirements (CAR) which all applicants must meet in order to be eligible for selection. CAR differ according to the level and type of course.

Course Admission Requirements

Courses may be considered competitive if there are limited places available, or non-competitive if all interested and qualified students will be accepted.

There are no CAR for non-competitive Certificate I, II, and III level courses at TAFE SA.

Admission requirements into competitive Certificate I, II, and III level courses vary, and interested applicants are advised to refer to specific course details at www.tafesa.edu.au.

All higher level qualifications including Certificate IV, Diploma and Advanced Diploma courses, whether competitive or non-competitive, have specified entry requirements. These vary by course and may include any of the following:

- > satisfactory completion of SACE Stage 2 (or equivalent);
- > any completed award at Certificate III level or higher;
- > satisfactory achievement in the TAFE SA Assessment of Basic Skills (TABS);
- > specific prerequisite subjects or related study.

Information about specific course admission requirements is available at www.tafesa.edu.au.

Selection into competitive TAFE SA courses

Where there are more eligible applicants for a TAFE SA course than there are places available, applicants are ranked in merit order for selection.

The TAFE SA Selection Score is used for this purpose for most SACE students.

The TAFE SA Selection Score is calculated from the scaled scores of the best 40 Stage 2 credits of Tertiary Admissions Subjects (TAS) plus the best outcome from either:

- > the score of a third 20 credit TAS or Recognised Studies;

or any two of the following:

- > half the score of another 20 credit TAS or Recognised Studies;
- > the score of a 10 credit TAS or Recognised Studies;
- > the score of another 10 credit TAS or Recognised Studies.

The TAFE SA Selection Score is reported to students in the score range 0–60.0.

Please note:

- > scaled scores of 0.0 cannot be counted in the calculation of the TAFE SA Selection Score;
- > there is no limit to the number of 10 credit TAS that can contribute to the TAFE SA Selection Score;
- > TAFE SA does not use counting restrictions.

2014 tertiary entrance year 12 in 2013

2014 university entry requirements

Selection into university courses/programs

Selection is based on both eligibility and rank. Eligibility allows you to be considered for selection; rank determines whether you are competitive enough to be selected.

To be eligible for selection into a university course/program you must:

- > qualify for the SACE/NTCET
- > obtain an Australian Tertiary Admission Rank (ATAR)
- > meet any prerequisite subject requirements for the course/program

The university aggregate and the Australian Tertiary Admission Rank (ATAR)

Your competitiveness in relation to other applicants for a given university course is based on your Selection Rank, which is made up of your ATAR plus any bonuses for which the university deems you eligible. The ATAR is a rank given to students on a range from 0 to 99.95 and is calculated from your university aggregate.

To obtain a university aggregate and an Australian Tertiary Admission Rank (ATAR) you must:

- > qualify for the SACE/NTCET
- > comply with the rules regarding precluded combinations
- > comply with the rules regarding counting restrictions
- > complete at least 80 credits of study in Tertiary Admissions Subjects (TAS) and Recognised Studies at Stage 2 in a maximum of three attempts which need not be in consecutive years
- > of the 80 credits of study a minimum of 60 credits of study must be from 20 credit TAS*

* Normally 10 credit subjects do not count towards this requirement but some 10 credit subjects in the same area, when studied in pairs, can substitute for a 20 credit subject. These are called valid pairs. Such subjects are identified in the table on pages 49-67.

Calculating the university aggregate

The university aggregate is calculated from scaled scores. These are the numeric measures of your performance in TAS which are derived from your grades, and are reported to you out of 20.0 for 20 credit subjects and out of 10.0 for 10 credit subjects. Please note that if you do not attempt the publicly assessed component of a TAS (eg an examination or final recital), you will be given a scaled score of 0.0.

The university aggregate is calculated from your best scaled scores from three 20 credit TAS plus the best outcome from the flexible option, which can be either:

- > the score of a fourth 20 credit TAS or Recognised Studies;

or any two of the following:

2014 tertiary entrance year 12 in 2013

- > half the score of a fourth 20 credit TAS or Recognised Studies;
- > the score of a 10 credit TAS or Recognised Studies;
- > the score of another 10 credit TAS or Recognised Studies;

subject to precluded combination and counting restriction rules. Subjects with scaled scores of 0.0 can be used in the calculation of the university aggregate. The subjects used in the calculation can only come from a maximum of three attempts which need not be in consecutive years.

Converting the university aggregate to an Australian Tertiary Admission Rank (ATAR)

The university aggregate is converted to an ATAR. The ATAR is an indicator of how well a particular student has performed relative to other students. It is calculated as follows:

- > the group of students who may qualify for a university aggregate in 2013 is called the 2013 cohort.
- > For each university aggregate score (in the range 0-80.0) obtained by the students in this cohort, the percentage of students who obtained that score or better is calculated. This is known as calculating the percentile distribution.
- > Each score in the range 0-80.0 now has a corresponding percentile rank in the range 0-100. For example, if a score of 70.4 or better out of 80.0 has been obtained by 10% of the cohort, the score of 70.4 will correspond to a percentile rank of 90.0 (100 – 10).
- > The 2013 cohort may differ from that of other years in that it may represent a smaller or larger percentage of the population of the same age group. The percentage from the given year is known as the participation rate. It is calculated using population statistics obtained from the Australian Bureau of Statistics and measuring these against the size of the cohort. If an allowance were not made for this, the final ATAR would not be comparable from one year to the next.

- > The percentile rank is then adjusted to take account of the participation rate and the result is the ATAR.

When the calculations are completed, a student's **relative** position on the ATAR range is **unchanged** from the student's **relative** position on the university aggregate range.

It is important to remember that a rank is not a score and an ATAR cannot be calculated arithmetically from a university aggregate.

Reporting the university aggregate and ATAR

The university aggregate is reported to students on a score range of 0-80.0 with intervals of 0.1.

The ATAR is reported to students on a percentile scale, ie on a range 0-99.95 with intervals of 0.05.

The university aggregate and ATAR are reported only to students who qualify for the SACE or NTCET.

Important information for prior year SACE/NTCET students returning to study in 2015 attempting to obtain or improve a university aggregate

The universities wish to ensure that all students obtaining an aggregate in 2015, whether for the first time or as a result of returning to study, will compete on the same basis for 2016 university entry. All students will therefore be subject to the new rules for the university aggregate.

If you have not obtained an aggregate by the end of 2014

If, for any reason, you have either not met the requirements of the SACE or not achieved a university aggregate by the end of the 2014 clerical check period (February 2015) you will be subject to all of the 2015 aggregate rules including the requirement to present 90 credits (see pages 44-47).

If you obtain an aggregate in 2011, 2012, 2013 or 2014

If you obtain a university aggregate in these years, your aggregate will have been calculated on 80 credits of study. If you wish to return to your studies in 2015 or later to improve your university aggregate, you will need to comply with the new

2014 tertiary entrance year 12 in 2013

rules for the university aggregate outlined above including the requirement to present 90 credits.

Please note, for your aggregate to be recalculated, you must receive a result in the 2015 results processing period such as a grade of E- or better with a scaled score of at least 0.0 in a TAS.

If you do not comply with these rules, a new university aggregate will not be calculated for you, but you will still be able to use the university aggregate and ATAR you obtained prior to 2015 for university entry.

Prerequisites

Some university courses/programs require students to have studied one or more specific Stage 2 subjects to a minimum standard in order to be eligible for selection into the course/program. These subjects are known as prerequisites.

In order to fulfil a prerequisite subject requirement, you must obtain a minimum grade of C- or better. The grade is used (rather than the scaled score) because the course/program administrators are interested in how well you performed in the subject itself as measured against the learning requirements of the Subject Outline.

Since prerequisites are used to determine eligibility, not rank, they do not have to contribute to the university aggregate.

Assumed knowledge

Many university courses/programs recommend that commencing students have background knowledge in one or more specified Stage 1 or Stage 2 subjects or have an identified skill which will enhance the student's understanding of the course/program content. This is known as assumed knowledge.

Assumed knowledge is not compulsory and is not used in the selection process for entry to university courses/programs. Statements of assumed knowledge are intended purely to assist students in understanding course/program content and to allow them to make subject choices which may be of benefit to them in their future tertiary studies.

University access and bonus points schemes

All three universities in South Australia and Charles Darwin University in the Northern Territory operate schemes designed to provide students from under-represented or educationally disadvantaged schools or backgrounds with assistance in gaining access to undergraduate courses/programs. In addition, the three universities in South Australia operate subject bonus points schemes for students who have completed particular subjects at SACE/NTCET Stage 2 level.

For applicants who are eligible for year 12 bonus points, SATAC will add the points to the university aggregate. The year 12 selection rank for the university or course/program listed as a preference will then be the ATAR which corresponds to the revised aggregate.

Selection ranks are university and/or course/program specific and do not appear on SACE/NTCET documentation.

Access schemes

Charles Darwin University - Consideration of NT School Leavers

A school leaver who applies to Charles Darwin University and who completes studies at a high school in the Northern Territory or at a high school in a rural area specifically identified by the University and gains an ATAR of 80 (or equivalent) is guaranteed an offer of a place in a course at Charles Darwin University through the SATAC process. This does not apply to the Bachelor of Clinical Sciences or the Bachelor of Engineering (Co-op) courses.

Charles Darwin University - NT Schools Bonus Points Scheme

Charles Darwin University offers bonus points to students who have completed studies in a high school in the Northern Territory or a high school in a rural area specifically identified by the University.

For further information, contact Charles Darwin University (see inside back cover for details).

2014 tertiary entrance year 12 in 2013

Flinders University - Rural and Isolated Student Access Scheme (RISAS)

The Rural and Isolated Student Access Scheme (RISAS) is operated by Flinders University to assist students from rural and isolated schools to gain access to Flinders University courses. All South Australian country schools, Northern Territory schools and interstate country schools are eligible. Eight bonus points are automatically added.

Bonus points are allocated to all students who face educational disadvantage because they attend rural and isolated schools.

Note that applicants can receive points under access and subject bonus points schemes (see page 10) to a maximum of nine bonus points.

For further information, contact Flinders University (see inside back cover for details) or see www.flinders.edu.au/risas.

Flinders University - Student Equal Access Scheme (SEAS)

The Student Equal Access Scheme (SEAS) is operated by Flinders University to assist students from low socioeconomic backgrounds in metropolitan schools. Students attending a SEAS school are automatically allocated six bonus points; an additional two bonus points are available to students who held a School Card or Health Care Card or received Youth Allowance for the duration of year 12. Those students that do not attend a SEAS school are eligible to receive six bonus points if they held a School Card or Health Care Card or received Youth Allowance for the duration of year 12.

Note that applicants can receive points under access and subject bonus points schemes (see page 10) to a maximum of nine bonus points.

For further information, contact Flinders University (see inside back cover for details) or see www.flinders.edu.au/seas.

Flinders University - Open Access subjects

Students undertaking one or more Open Access subjects at Stage 2 level are awarded two bonus points.

Note that applicants can receive points under access

and subject bonus points schemes (see page 10) to a maximum of nine bonus points.

For further information, contact Flinders University (see inside back cover for details) or see www.flinders.edu.au/risas or www.flinders.edu.au/seas.

The University of Adelaide - Fairway Scheme

The Fairway Scheme provides students from all Australian country schools and some South Australian metropolitan schools deemed under-represented in higher education with an extra opportunity to study at the University of Adelaide. Each year Fairway Scheme schools are determined on the basis of participation rates of their students in South Australian universities over the previous three years. To see if your school is included, search for your school's postcode on the online map at www.doctorconnect.gov.au/internet/otd/publishing.nsf/Content/locator.

Students attending non Fairway Scheme schools, but who are in receipt of Youth Allowance or who hold a School Card or a Health Care Card can also apply to receive six Fairway bonus points at www.adelaide.edu.au/study/high-school/getting-in/access.

Note: applicants can receive bonus points under both the Fairway Scheme and the Specialist Mathematics/LOTE bonus points scheme (see page 10) to a maximum of nine bonus points.

For further information, contact the University of Adelaide (see inside back cover for details).

University of South Australia - Aspire bonus points

Aspire bonus points are awarded automatically to students who attend a school recognised and recorded by UniSA as under-represented, with respect to students going on to higher education, or who attend a school in a rural or remote area. Students who do not attend a recognised school, but are eligible for Youth Allowance, a School Card and/or Health Care Card or Low Income Health Care Card, can apply for bonus points by downloading an application form at www.unisa.edu.au/future/year12/bonuspoints.

If you are unsure if your school is recognised and

2014 tertiary entrance year 12 in 2013

recorded within UniSA Aspire or if you need to submit an application, please check with your year 12 coordinator, school counsellor, principal or UniSA's Future Student Enquiries on (08) 8302 2376 or 1300 UNINOW (local call cost) or email study@unisa.edu.au.

Note that applicants can receive bonus points under both the Aspire and Achievement (see page 11) strands of UniSA Advantage to a maximum of nine bonus points.

Subject bonus points schemes

Flinders University - LOTE Bonus Point Scheme

The LOTE Bonus Point Scheme is for students who study Language Other Than English (LOTE) subjects at SACE/NTCET Stage 2 level.

To be eligible for the bonus points, a student must obtain a minimum final subject grade of C- in one or more LOTE subjects and apply for selected degree courses at Flinders University.

LOTE is any language other than English subject, regardless of whether it is taken at the Beginners, Continuers or Background Speakers level. Note, English as a Second Language is not considered a LOTE subject. Applicants will receive a maximum of two bonus points for LOTE subjects, regardless of the number of LOTE subjects studied.

Note that applicants can receive points under access and subject bonus points schemes (see page 9) to a maximum of nine bonus points.

For further information, contact Flinders University (see inside back cover for details) or see www.flinders.edu.au/special-entry.

Flinders University - Science and Mathematics Bonus Point Scheme

The Science and Mathematics Bonus Point Scheme is for students who study Biology, Chemistry, Mathematical Studies, Physics or Specialist Mathematics at SACE/NTCET Stage 2 level.

To be eligible for the bonus points, a student must obtain a minimum final subject grade of C- in one or more of the subjects listed above and apply for

selected Science and Engineering degrees at Flinders University. Two bonus points are given for each subject.

Note that applicants can receive points under access and subject bonus points schemes (see page 9) to a maximum of nine bonus points.

For further information, contact Flinders University (see inside back cover for details) or see www.flinders.edu.au/smbp.

The University of Adelaide - Bonus Points Scheme

The Bonus Points Scheme is for students who study Specialist Mathematics and/or a Language Other Than English (LOTE) at SACE/NTCET Stage 2 level.

The Bonus Points Scheme offers up to four bonus points each for successful completion of Specialist Mathematics and/or a LOTE subject, depending on performance in each subject. Two bonus points will be given for a C grade (C-, C or C+), three bonus points for a B grade (B-, B or B+), and four bonus points for an A grade (A-, A or A+).

The LOTE can be any Language Other Than English, regardless of whether it is taken at Beginners, Continuers or Background Speakers level. A maximum of four bonus points will be given for LOTE, regardless of the number of LOTE subjects studied.

Please note that English as a Second Language is not a LOTE.

Note that applicants can receive bonus points under both the Bonus Points Scheme and the Fairway Scheme to a maximum of nine bonus points. In addition, please note that selection for the Bachelor of Medicine/Bachelor of Surgery does not include bonus points for Specialist Mathematics/LOTE, however selection will still include Fairway bonus points.

For further information contact the University of Adelaide (see inside back cover for details), or go to www.adelaide.edu.au/study/high-school/getting-in/bonus.

2014 tertiary entrance year 12 in 2013

University of South Australia - Achievement bonus points

Achievement bonus points are awarded automatically to students for nominated year 12 subjects which the University believes will better prepare students for study in their chosen University of South Australia program.

To be eligible for the bonus points, a student must obtain a minimum final subject grade of C- in the nominated SACE/NTCET Stage 2 subject listed for each University of South Australia program.

Applicants will receive two bonus points for each subject up to a maximum of five bonus points.

Note that applicants can receive bonus points under both the Achievement and Aspire (see page 10) strands of UniSA Advantage to a maximum of nine bonus points.

For further information, contact the University of South Australia (see inside back cover for details) or go to www.unisa.edu.au/future/year12/bonuspoints.

2014 tertiary entrance year 12 in 2013

Recognised Studies

The SACE Board of South Australia has policies and procedures to recognise a range of non-SACE learning that can count towards the SACE/NTCET. The universities and TAFE SA may also agree to these studies contributing to the flexible option in the calculation of the Australian Tertiary Admission Rank (ATAR) and the TAFE SA Selection Score.

Rules regarding Recognised Studies

The rules agreed to by the universities and TAFE SA regarding Recognised Studies are outlined in full on the SATAC website at www.satac.edu.au. The most important rules are outlined below.

For Recognised Studies to count towards the ATAR or TAFE SA Selection Score, the following conditions must be met.

Recognition by the SACE Board

- > Studies must be approved by the SACE Board as counting towards the SACE/NTCET at Stage 2 level.

Nature of Study

- > Under normal circumstances only academic studies or vocational training will be recognised; life experiences and community involvement will generally not be recognised.

Level of Study

- > Studies must be at the same or higher level as SACE/NTCET Stage 2 subjects in terms of the AQF.
- > VET studies must be completed qualifications at AQF Certificate III or above.

Significant content overlap

- > Studies that have significant overlap with a SACE/NTCET Stage 2 subject already presented by a candidate will be considered in the university aggregate calculation, but in such instances only one of any overlapping pair will count towards the final aggregate. SACE subjects and interstate/International Baccalaureate year 12 subjects in the same subject area (eg English Studies) are treated as precluded combinations.

Level of achievement

- > In all cases studies will only count towards the university aggregate provided the candidate has been assessed at a level that is deemed to be equivalent to a SACE/NTCET grade of C- or better.

Studies normally able to be counted as Recognised Studies, but completed in any year following the year in which the university aggregate and/or TAFE SA Selection Score has been calculated, cannot be used to recalculate these scores.

Scaled scores for Recognised Studies

Scaled scores for Recognised Studies are awarded according to rules approved by the universities and TAFE SA. For more details visit the SATAC website at www.satac.edu.au.

Please note that, due to the grading systems used, it is not possible to achieve a scaled score of 20.0 when some types of year 12 study are counted as Recognised Studies. This includes the International Baccalaureate and year 12 qualifications from some Australian states.

Studies that will not count in the calculation of the ATAR/TAFE SA Selection Score

Such studies will include:

- > any body of study counting for less than 10 credits (including academic subjects);
- > learning gained in community developed programs;
- > learning gained through self-directed community learning;
- > Stage 2 exit assessments including 10 credits given in lieu of one semester of a 20 credit Stage 2 subject;
- > individual VET units of competency;
- > interstate year 12 subjects that cannot contribute to the ATAR in their home state.

2014 tertiary entrance year 12 in 2013

Procedures for approval of Recognised Studies

The procedures for approval of Recognised Studies are published on the SATAC website.

Recognised Studies will be dealt with in two ways:

Pre-approved Recognised Studies

The universities and TAFE SA have agreed that the following studies can be counted as Recognised Studies subject to the rules for Recognised Studies:

- > Higher and Standard Level International Baccalaureate (IB) subjects;
- > specified Australian interstate year 12 subjects which count towards the ATAR in their home state;
- > completed VET awards at Certificate III level and above;
- > university studies which are part of a degree level course and not of an introductory nature.

Application for Approval for Other Studies

To gain approval for studies that have not been pre-approved to count as Recognised Studies your school will, in the first instance, need to gain permission from the SACE Board for the studies to be recognised as counting towards the SACE/NTCET at Stage 2.

Learning recognised by the SACE Board will then be referred to the universities and TAFE SA for consideration as Recognised Studies.

2014 tertiary entrance year 12 in 2013

How your university aggregate is calculated

60

Three 20 credit scores

20

Final 20 credits -
flexible option

Your scaled scores from three 20 credit Tertiary Admissions Subjects (TAS) are used.

Normally, 10 credit subjects do not count towards this requirement but some 10 credit subjects in the same subject area, when studied in pairs, can substitute for a 20 credit subject. These are called valid pairs. Such subjects are identified in the table on pages 49 – 67.

Your score for the final 20 credits of study can come from

either your score from:

> another 20 credit TAS or
Recognised Studies
equivalent to 20 credits

or any **two** of the following:

> half the score of a 20 credit
TAS or Recognised Studies
equivalent to 20 credits

> the score of a 10 credit TAS or
Recognised Studies
equivalent to 10 credits

> the score of another 10 credit
TAS or Recognised Studies
equivalent to 10 credits

Your university aggregate is the best possible score calculated from the above options subject to counting restrictions and precluded combinations.

Examples of university aggregate and TAFE SA Selection Score calculations for 2014 entry

Deb					
Stage 2 subjects completed	2CME20 Chemistry	2END20 English Studies	2MDS20 Mathematical Studies	2MES20 Media Studies	2RPA10 Research Project
Credits	20	20	20	20	10
TAS	✓	✓	✓	✓	✗
Scaled Score	16.2	14.8	12.4	10.2	
Used in university aggregate	✓	✓	✓	✓	
Used in TAFE SA Selection Score	✓	✓	✓	✗	

Deb's total score from her best 60 credits of TAS is: $16.2 + 14.8 + 12.4 = 43.4$

Deb's best score for her flexible option comes from another 20 credit TAS: 10.2

Her university aggregate is therefore: $43.4 + 10.2 = 53.6$ (out of 80)

Deb's TAFE SA Selection Score is the sum of her best 60 credits of study: $16.2 + 14.8 + 12.4 = 43.4$ (out of 60)

Carmen					
Stage 2 subjects completed	2MSC20 Specialist Mathematics	2MHD20 Mathematical Methods	2ECS20 English Communications	2ABD20 Aboriginal Studies	2RPB10 Research Project
Credits	20	20	20	20	10
TAS	✓	✓	✓	✓	✓
Scaled Score	19.8	18.2	17.0	14.2	7.8
Used in university aggregate	✓	✓	✓	✓	✓
Used in TAFE SA Selection Score	✓	✓	✓	✗	✗

Carmen's total score from her best 60 credits of TAS is: $19.8 + 18.2 + 17.0 = 55.0$

Carmen's best score for her flexible option comes from her Research Project and half the score of a 20 credit TAS: $7.8 + \frac{1}{2}(14.2) = 14.9$

Her university aggregate is therefore: $55.0 + 14.9 = 69.9$ (out of 80)

Carmen's TAFE SA Selection Score is the sum of her best 60 credits of study: $19.8 + 18.2 + 17.0 = 55.0$ (out of 60)

Michael					
Stage 2 subjects completed	2BIG20 Biology	2MHD20 Mathematical Methods	2EPW20 English Pathways	2PSC10 Psychology	2RPB10 Research Project
Credits	20	20	20	10	10
TAS	✓	✓	✓	✓	✓
Scaled Score	16.6	16.0	15.0	8.0	6.4
Used in university aggregate	✓	✓	✓	✓	✓
Used in TAFE SA Selection Score	✓	✓	✓	✓	✗

Michael's total score from his best 60 credits of TAS is: $16.6 + 16.0 + 15.0 = 47.6$

Michael's best score for his flexible option comes from the score of a 10 credit TAS and his Research Project: $8.0 + 6.4 = 14.4$

His university aggregate is therefore: $47.6 + 14.4 = 62.0$ (out of 80)

Michael's TAFE SA Selection Score is the sum of his best 60 credits of study: $16.6 + 16.0 + 8.0 + \frac{1}{2}(15.0) = 48.1$ (out of 60)

Examples of university aggregate and TAFE SA Selection Score calculations for 2014 entry

Kim						
Stage 2 subjects completed	2PYS20 Physics	2MCN20 Mathematical Applications	2MCG10 Composing and Arranging	2MBL10 Ensemble Performance	2END20 English Studies	2RPA10 Research Project
Credits	20	20	10	10	20	10
TAS	✓	✓	✓	✓	✓	✗
Scaled Score	16.2	14.8	6.3	4.0	10.2	
Used in university aggregate	✓	✓	✓	✓	✓	
Used in TAFE SA Selection Score	✓	✓	✓	✗	✓	

Kim has completed a valid pair (2MCG10 and 2MBL10) which can substitute for a 20 credit subject.

Kim's total score from his best 60 credits of TAS is: $16.2 + 14.8 + (6.3 + 4.0) = 41.3$

Kim's best score for his flexible option comes from another 20 credit TAS: 10.2

His university aggregate is therefore: $41.3 + 10.2 = 51.5$ (out of 80)

Kim's TAFE SA Selection Score is the sum of his best 60 credits of study: $16.2 + 14.8 + 6.3 + \frac{1}{2}(10.2) = 42.4$ (out of 60)

Mia					
Stage 2 subjects completed	2BIG20 Biology	2END20 English Studies	2ABD20 Aboriginal Studies	IB SL French	2RPB10 Research Project
Credits	20	20	20	20	10
TAS	✓	✓	✓	✗	✓
Scaled Score	17.0	16.8	16.0	18.2	8.1
Used in university aggregate	✓	✓	✓	✓	✗
Used in TAFE SA Selection Score	✓	✓	✗	✓	✗

Mia has completed Recognised Studies (IB SL French) which can contribute to the final 20 credits of study for her university aggregate.

Mia's total score from her best 60 credits of TAS is: $17.0 + 16.8 + 16.0 = 49.8$

Mia's best score for her flexible option comes from Recognised Studies equivalent to 20 credits: 18.2

Her university aggregate is therefore: $49.8 + 18.2 = 68.0$ (out of 80)

Mia's TAFE SA Selection Score is the sum of her best 60 credits of study which includes her Recognised Studies: $17.0 + 16.8 + 18.2 = 52.0$ (out of 60)

Examples of university aggregate and TAFE SA Selection Score calculations for 2014 entry

Brett						
Stage 2 subjects completed	2MCN20 Mathematical Applications	2PYS20 Physics	2END20 English Studies	2RPB10 Research Project	2MDS20 Mathematical Studies	
Credits	20	20	20	10	20	
TAS	✓	✓	✓	✓	✓	
Scaled Score	19.6	18.2	10.2	7.6	19.0	
Used in university aggregate	✗	✗	✗	✗	✗	
Used in TAFE SA Selection Score	✓	✓	✓	✗	✗	

Brett has completed two subjects which are a precluded combination (2MCN20 and 2MDS20). Only one of the two precluded subjects can contribute to his university aggregate and his TAFE SA Selection Score.

Despite completing at least 80 credits of TAS, Brett did not obtain a university aggregate because he did not comply with the rules regarding precluded combinations.

Brett's TAFE SA Selection Score is the sum of his best 60 credits of study excluding any precluded combinations: $19.6 + 18.2 + 10.2 = 48.0$ (out of 60)

Ashley						
Stage 2 subjects completed	2AHC20 Agricultural and Horticultural Science	2AHE20 Agricultural and Horticultural Enterprise	2END20 English Studies	2RPB10 Research Project	2MBL10 Ensemble Performance	2AHP20 Agricultural and Horticultural Principles
Credits	20	20	20	10	10	20
TAS	✓	✓	✓	✓	✓	✓
Scaled Score	18.2	16.4	15.0	8.4	4.0	16.0
Used in university aggregate	✓	✓	✓	✓	✓	✗
Used in TAFE SA Selection Score	✓	✓	✗	✗	✗	✓

Ashley has completed subjects which have counting restrictions (2AHE20 and 2AHP20). A maximum of 20 credits from these two subjects can contribute to Ashley's university aggregate.

Ashley's total score from his best 60 credits of TAS, excluding subjects in violation of counting restrictions, is:
 $18.2 + 16.4 + 15.0 = 49.6$

Ashley's best score for his flexible option comes from his Research Project and the score of a 10 credit TAS: $8.4 + 4.0 = 12.4$

His university aggregate is therefore: $49.6 + 12.4 = 62.0$ (out of 80)

Ashley's TAFE SA Selection Score is the sum of his best 60 credits of study: $18.2 + 16.4 + 16.0 = 50.6$ (out of 60)

Counting restrictions do not apply to the TAFE SA Selection Score.

2015 & 2016 tertiary entrance years 11 and 10 in 2013

2015 and 2016 TAFE SA entry requirements

The TAFE SA Course Admission Requirements (CAR) are reviewed each year but will continue to recognise SACE completion.

2015 university entry requirements

The basic entry requirements for 2015 are the same as for 2014 (see pages 18–42). The table below shows changes to the entry requirements for 2015. There will no doubt be changes to the courses/programs available but students can use the present list as a guide to assist them in their SACE/NTCET Stage 2 (year 12) subject choices.

SATAC has not been advised of any changes to courses/programs for 2015.

All universities		
Courses/Programs	Prerequisites	Assumed knowledge
All courses/programs	Same as for 2014 entry	Same as for 2014 entry

For entry in 2015 the method of calculating the university aggregate and the ATAR will be the same as for 2014 entry (see pages 6–17).

2016 university entry requirements

The basic entry requirements for 2016 are the same as for 2014 (see pages 18–42). The table below shows changes to the entry requirements for 2016. There will no doubt be changes to the courses/programs available but students can use the present list as a guide to assist them in their SACE/NTCET Stage 1 (year 11) subject choices.

SATAC has not been advised of any changes to courses/programs for 2016.

All universities		
Courses/Programs	Prerequisites	Assumed knowledge
All courses/programs	Same as for 2014 entry	Same as for 2014 entry

For entry in 2016 the method of calculating the university aggregate and the ATAR will change (see pages 44–47).

2016 tertiary entrance year 10 in 2013

2016 university entry requirements

Selection into university courses/programs

Selection requirements for 2016 entry to university courses remain the same as for 2014 and 2015. Selection is based on both eligibility and rank. Eligibility allows you to be considered for selection; rank determines whether you are competitive enough to be selected.

To be eligible for selection into a university course/program in 2016 you must:

- > qualify for the SACE/NTCET
- > obtain an Australian Tertiary Admission Rank (ATAR)
- > meet any prerequisite subject requirements for the course/program

The university aggregate and the Australian Tertiary Admission Rank (ATAR)

Your competitiveness in relation to other applicants for a given university course is based on your Selection Rank which is made up of your ATAR plus any bonuses for which the university deems you eligible. The ATAR is a rank given to students on a range from 0 to 99.95 and is calculated from your university aggregate. For university entry from 2016 the requirements for calculation of a university aggregate have been changed.

To obtain a university aggregate and an Australian Tertiary Admission Rank (ATAR) for entry in 2016 you must:

- > qualify for the SACE/NTCET
- > comply with the rules regarding precluded combinations
- > comply with the rules regarding counting restrictions
- > complete at least 90 credits of study in Tertiary Admissions Subjects (TAS) and Recognised Studies at Stage 2 in a maximum of three attempts
- > of the 90 credits of study a minimum of 60 credits of study must be from 20 credit Tertiary Admissions Subjects (TAS)* and a maximum of 20 credits can be Recognised Studies

* Normally 10 credit subjects do not count towards this requirement but some 10 credit subjects in the same area, when studied in pairs, can substitute for a 20 credit subject.

Calculating the university aggregate

The university aggregate is calculated from scaled scores. These are the numeric measures of your performance in TAS which are derived from your grades, and are reported to you out of 20.0 for 20 credit subjects and out of 10.0 for 10 credit subjects. Please note that if you do not attempt the publicly assessed component of a TAS (eg an examination or final recital), you will be given a scaled score of 0.0.

The university aggregate in 2015 is calculated from your best scaled scores from a maximum of three attempts, and from the following:

- > Three 20 credit TAS (including valid pairs); plus
- > The best outcome from the flexible option, which is the best 30 credits of scaled scores or scaled score equivalents from:
 - > the scaled score of a 20 credit TAS;
 - > half the scaled score of one or more 20 credit TAS;

2016 tertiary entrance year 10 in 2013

- > the scaled score of one or more 10 credit TAS;
- > scaled score equivalents for Recognised Studies to the value of 10 or the maximum of 20 credits;

subject to precluded combination and counting restriction rules. Subjects with scaled scores of 0.0 can be used in the calculation of the university aggregate. The subjects used in the calculation can only come from a maximum of three attempts which need not be in consecutive years.

Converting the university aggregate to an Australian Tertiary Admission Rank (ATAR)

The university aggregate is converted to an ATAR. The ATAR is an indicator of how well a particular student has performed relative to other students. The calculation of the ATAR for the 2015 student cohort

remains the same as that used for the 2013 and 2014 cohorts (see page 6) but uses a university aggregate score in the range 0-90.0.

Reporting the university aggregate and ATAR

The university aggregate in 2015 is reported to students on a score range of 0-90.0 with intervals of 0.1.

The ATAR is reported to students on a percentile scale, ie on a range 0-99.95 with intervals of 0.05.

The university aggregate and ATAR are reported only to students who qualify for the SACE or NTCET.

How your university aggregate is calculated

60
Three 20 credit scores

30
Final 30 credits -
flexible option

Your scaled scores from three 20 credit Tertiary Admissions Subjects (TAS) are used.

Normally, 10 credit subjects do not count towards this requirement but some 10 credit subjects in the same subject area, when studied in pairs, can substitute for a 20 credit subject. These are called valid pairs. Such subjects are identified in the table on pages 49 – 67.

Your score for the flexible option is the best 30 credits of scaled scores or scaled score equivalents from:

- > the scaled score of a 20 credit TAS;
- > half the scaled score of one or more 20 credit TAS;
- > the scaled score of one or more 10 credit TAS;
- > scaled score equivalents for Recognised Studies to the value of 10 or the maximum of 20 credits.

Your university aggregate is the best possible score calculated from the above options subject to counting restrictions and precluded combinations.

Examples of university aggregate and TAFE SA Selection Score calculations for 2016 entry

Craig – SACE or NTCET					
Stage 2 subjects completed	2AHM20 Agricultural and Horticultural Management	2BIG20 Biology	2FOH20 Food and Hospitality	2RPB10 Research Project B	2MHD20 Mathematical Methods
Credits	20	20	20	10	20
TAS	✓	✓	✓	✓	✓
Scaled Score	18.0	15.0	12.0	6.0	8.0
Used in university aggregate	✓	✓	✓	✓	✓
Used in TAFE SA Selection Score	✓	✓	✓	✗	✗

Craig's total score from his best 60 credits of TAS is: $18.0 + 15.0 + 12.0 = 45.0$

Craig's best score for his flexible option comes from the score of his 10 credit Research Project and a 20 credit TAS: $6.0 + 8.0 = 14.0$

His university aggregate is therefore: $45.0 + 14.0 = 59.0$ (out of 90)

Craig's TAFE SA Selection Score is the sum of his best 60 credits of study: $18.0 + 15.0 + 12.0 = 45.0$ (out of 60)

Carl – NTCET only					
Stage 2 subjects completed	2ACG20 Accounting	2ECS20 English Communications	2EMS20 Economics	Cert III in Hospitality	2MCN20 Mathematical Applications
Credits	20	20	20	20	20
TAS	✓	✓	✓	✗	✓
Scaled Score	18.0	16.0	14.0	15.4	12.0
Used in university aggregate	✓	✓	✓	✓	✓
Used in TAFE SA Selection Score	✓	✓	✗	✓	✗

As a NTCET student, Carl is not required to complete the Research Project.

Carl's total score from his best 60 credits of TAS is: $18.0 + 16.0 + 14.0 = 48.0$

Carl's best score for his flexible option comes from his Recognised Studies (Certificate III in Hospitality) and half the score of a 20 credit TAS: $15.4 + \frac{1}{2}(12.0) = 21.4$

His university aggregate is therefore: $48.0 + 21.4 = 69.4$ (out of 90)

Carl's TAFE SA Selection Score is the sum of his best 60 credits of study: $18.0 + 16.0 + 15.4 = 49.4$ (out of 60)

Examples of university aggregate and TAFE SA Selection Score calculations for 2016 entry

Cathy – SACE or NTCET						
Stage 2 subjects completed	2PYS20 Physics	2BIG20 Biology	2PPS20 Philosophy	2RPB10 Research Project B	2MNP10 Musicianship	2END20 English Studies
Credits	20	20	20	10	10	20
TAS	✓	✓	✓	✓	✓	✓
Scaled Score	18.0	15.0	12.0	6.0	5.0	8.0
Used in university aggregate	✓	✓	✓	✓	✓	✓
Used in TAFE SA Selection Score	✓	✓	✓	✗	✗	✗

Cathy's total score from her best 60 credits of TAS is: $18.0 + 15.0 + 12.0 = 45.0$

Cathy's best score for her flexible option comes from the score of two 10 credit TAS and half the score of a 20 credit TAS: $6.0 + 5.0 + \frac{1}{2}(8.0) = 15.0$

Her university aggregate is therefore: $45.0 + 15.0 = 60.0$ (out of 90)

Cathy's TAFE SA Selection Score is the sum of her best 60 credits of study: $18.0 + 15.0 + 12.0 = 45.0$ (out of 60)

2014 tertiary entrance SACE/NTCET subject table

SACE/NTCET subject table

The table on the following pages describes university and TAFE SA entry rules for SACE/NTCET subjects. It provides information on rules affecting entry to both the universities **and** TAFE SA, and rules affecting entry to university only.

When choosing a pattern of study for tertiary entrance, you must take into account all of these rules.

Key terms

TAS

TAS, or Tertiary Admissions Subjects, are nominated by the universities and TAFE SA as the only SACE/NTCET subjects that can be used in the calculation of the ATAR or TAFE SA Selection Score.

Precluded combinations

If two subjects are a precluded combination they cannot both be counted in the calculation of your ATAR or TAFE SA Selection Score.

Students who have studied Stage 2 subjects before 2011 should note that there are also precluded combinations that disallow some former SACE/NTCE and current SACE/NTCET subjects from both counting towards your ATAR or TAFE SA Selection Score.

The table lists precluded combinations of both current and former SACE/NTCET subjects.

Can contribute to first 60 credits for aggregate/ATAR

The universities require that at least 60 credits of TAS used to calculate your ATAR must come from 20 credit subjects. Normally, 10 credit subjects won't count, but some 10 credit subjects when studied in pairs in the same subject area can substitute for a 20 credit subject. The table will tell you which TAS can be used in the 60 credits, and which 10 credit subjects can form valid pairs.

Counting restrictions

To ensure you study subjects in a variety of areas the universities place restrictions on the number of credits in the same study area you can count towards the ATAR. The table will advise you if counting restrictions apply.

Abbreviations & terminology

Abbreviations

ATAR	Australian Tertiary Admission Rank
CAR	Course Admission Requirements
NTCET	Northern Territory Certificate of Education and Training
SACE	South Australian Certificate of Education
SATAC	South Australian Tertiary Admissions Centre
TAS	Tertiary Admissions Subject

Terminology

Assumed Knowledge

Background knowledge in a SACE/NTCET Stage 1 or Stage 2 subject or an identified skill which is expected to enhance a student's understanding of the content of a given tertiary course/program.

Completion and Successful Completion of Subjects

In the terminology of the SACE, subject Completion means achieving a grade of E or better at Stage 1 and a grade of E- or better at Stage 2, while Successful Completion of a subject means achieving a grade of C or better at Stage 1 and a grade of C- or better at Stage 2.

Counting Restriction

Counting restrictions are used where it is deemed desirable to limit the number of credits that can be counted towards a university aggregate and the ATAR in a specific subject area. This is to ensure students study a broad range of subjects. For example, a subject area might have eight 10 credit subjects available but the universities might set a counting restriction of 40 credits meaning only four can ever count towards the calculation of an ATAR.

Flexible Option

Flexible option refers to the final 20 credits of study contributing to the university aggregate and the TAFE SA Selection Score.

The 20 credits of the flexible option can be met with the scores from additional 10 or 20 credit TAS and/or Recognised Studies (see page 10 for details).

Precluded Combination

Two subjects are a precluded combination if they are defined by the universities and TAFE SA as having significant overlap in content. They cannot both count towards your ATAR or TAFE SA Selection Score.

Prerequisite

A SACE/NTCET Stage 2 TAS subject in which a student must obtain a minimum grade of C- or better in order to be eligible for selection into the course/program for which the prerequisite is nominated.

Recognised Studies

Studies such as International Baccalaureate, interstate year 12, higher education studies or Vocational Education and Training (VET) awards approved by the SACE Board as counting towards the SACE/NTCET and deemed by the universities and TAFE SA as being eligible to be included in the calculation of the ATAR and TAFE SA Selection Score. For Recognised Studies, scores approved by the universities and TAFE SA will be used in calculations. Further information on Recognised Studies is available to schools and students on the SATAC website.

Scaling

The mathematical process which provides a basis for comparing performance in different SACE/NTCET Stage 2 subjects which have different objectives, content and assessment processes. The 'raw scores' are scaled to ensure they are comparable before they are totalled to produce the university aggregate.

Tertiary Admissions Subject (TAS)

A SACE Stage 2 subject which has been approved by the universities and TAFE SA as providing appropriate preparation for tertiary studies. Both the universities and TAFE SA require students to study a minimum number of credits of TAS to be eligible to receive a selection score or rank.
